

CS410 Weekly Report

Team Copper AI²

Performance Period: Sunday 1/25 - Saturday 1/31

Summary of Group Accomplishments:

- This week the following tasks were completed:
 - Each team member did individual research into what we may use for our tech stack.
 - The team decided during our (1/30) meeting that we want to go the monolithic route and use Flask as our framework.
 - Mentor Jacob joined our meeting and fielded a variety of concerns that we had. He helped us decide how to lay ground and what we must have accomplished in time for Demo1 (2/25).

Individual Contributions/Accomplishments: (to be filled out by each individual)

Dusan:

- Dusan reached out to ADS and Jacob via email. Dusan heard back from Jacob and planned for him to join our weekly team meetings. ADS replied to Dusan that they will send us data to use for our project soon.

Key Objectives for Coming Week (top level prototype development objectives)

- Each team member must have a general understanding of Flask, and have their development environments ready to go prior to the next meeting (2/6).

Issues/Concerns:

- None
